

Inform Racing Fee Betting Course – Lesson 4

www.informracing.com

This easy to use system looks for horses that are thought to have a good chance of success but not supported by one of the main newspaper tipsters.

To see all newspaper selections for each race, go to the following website.

<https://www.napchecker.com/tipster.php>

Here you can click on all meetings and times and see a list of horses that are or are not tipped by one of the main newspaper tipsters.

1. Go through all races and note every horse that is one of the first 5 in the betting using the Betfair prices.
2. The first horse that is one of the first 5 named in the betting that is not a selection of any of the newspaper tipsters, is a possible selection.
3. Check the Betfair price is either:
 - A maximum of 3 times the price of the favourite
 - Or a maximum price of 10.0 if the favourite is 3.5 or bigger

So if the favourite has a Betfair price of 2.0 then the selection must be 6.0 or less.

If the favourite has a Betfair price of 4.0, then it could mean a maximum for the selection of 12.0 but we stick to a maximum of 10.0 at all times.

The best time to check for any selections is between 10am and 11am but if you have to check at other times then you can.

When you have a selection, you do not need to only bet according to the price stipulations on step 3 above. You will bet the horse at any price that it starts at. We just need to be sure it passes step 3 when you make the selection.

The reason we are looking for these un tipped horses, is that they are thought by the price to have a reasonable chance compared to the favourite and the fact that it is not tipped by one of the big newspaper tipsters means we could get a bigger price than we should do, were it tipped or napped by a few or all.

You can bet these horses in singles, doubles or using a stop at a winner strategy using staking of 1, 1, 2, 2, 4, 8 and making sure you start at 1 again if you have 6 losing bets.

If you do you could use double staking of 2, 2, 4, 4, 8, 16 making a total bank required of 54 points.

Thanks and good luck.
